"YOU ASKED FOR IT!!"

THE NEW "PASSENGER COMPARTMENT OPTION" BY CHECKER

Always responsive to the requests of the Taxicab Industry Checker Motors now has available the new "Passenger Compartment Option" in the Checker Taxicab.

The "Passenger Compartment Option" means that the seat assembly in the rear passenger compartment has been moved forward 101/2".

This unique achievement in taxicab design is now available for those operators who desire a reduction in passenger compartment area without any sacrifice of the exclusive features for passenger and driver comfort that are inherent in Checker Products.

This car can be purchased for \$2,118.40* READY TO ROLL
